

habitat) and at certain times of the year. This may cause, for the short term, an increase in carbon monoxide and smoke particulates. Burning would be coordinated with the Oregon Department of Environmental Quality to ensure that impacts to air quality would be minimal.

To avoid adverse impacts to fish and wildlife habitat, management of public access will include the use of interpretive signs to educate visitors on the need to stay in designated areas, using vegetation as a natural barrier to prevent off-trail use, and/or having seasonal restrictions on visitor access.

Timing and location of management activities (burning of Reed canary grass, mechanical removal of blackberries, and trapping of bullfrogs) would occur in such a manner as to minimize disturbance to native fish and wildlife, especially during such critical periods as the breeding season for waterfowl.

A cultural resource survey was performed on the Burlington Bottoms site in September of 1994. No prehistoric materials were observed, possibly due to twentieth century fill material and dense vegetation which obscure the ground surface, hindering recognition of these resources. Any ground-disturbing activities (e.g., excavations or surface leveling) related to the construction of the trail and wildlife viewing areas and the placement of interpretive signs will be monitored by an archaeologist since it is possible that unrecorded prehistoric sites exist beneath the ground surface.

Determination: Based on the information in the EA, summarized here, BPA determines that the proposed action is not a major Federal action significantly affecting the quality of the human environment within the meaning of NEPA, 42 U.S.C. 4321 *et seq.* Therefore, an EIS will not be prepared and BPA is issuing this FONSI.

Issued in Portland, Oregon, on December 28, 1994.

Administrator and Chief Executive Officer.

i. FERC Contact: Mohamad Fayyad, (202) 219-2665.

j. Comment Date: February 6, 1995.

k. Description of Amendment:

Licensee proposes to modify the route of project's transmission line, which has not been constructed yet. Under the proposed route, the transmission line would be 26-mile-long, 138-Kv overhead line from Belleville Hydroelectric Project powerhouse to Ohio Power Company's Rutherford Substation. The line would consist primarily of wood pole H-frame structures with typical spans between 800 to 900 feet.

Please, note that we are currently in the process of preparing a draft environmental assessment, which we will notice for comments upon completion.

BILLING CODE 6717-01-M

[Project No. 2069-000]

Arizona Public Service Co., Notice of Authorization for Continued Project Operation

January 3, 1995.

On December 18, 1992, Arizona Public Service Company, licensee for the Irving and Childs Project No. 2069, filed an application for a new or subsequent license pursuant to the Federal Power Act (FPA) and the Commission's regulations thereunder. Project No. 2069 is located on Fossil Creek and the Verde River in Yavapai and Gila Counties, Arizona.

The license for Project No. 2069 was issued for a period ending December 31, 1994. Section 15(a)(1) of the FPA, 16 U.S.C. 808(a)(1), requires the Commission, at the expiration of a license term, to issue from year to year an annual license to the then licensee

under the terms and conditions of the prior license until a new license is issued, or the project is otherwise disposed of as provided in Section 15 or any other applicable section of the FPA. If the project's prior license waived the applicability of Section 15 of the FPA, then, based on Section 9(b) of the Administrative Procedure Act, 5 U.S.C. 558(c), and as set forth at 18 CFR 16.21(a), if the licensee of such project has filed an application for a subsequent license, the licensee may continue to operate the project in accordance with the terms and conditions of the license after the minor or minor part license expires, until the Commission acts on its application. If the licensee of such a project has not filed an application for a subsequent license, then it may be required, pursuant to 18 CFR 16.21(b), to continue project operations until the Commission issues someone else a license for the project or otherwise orders disposition of the project.

If the project is subject to section 15 of the FPA, notice is hereby given that an annual license for Project No. 2069 is issued to Arizona Public Service Company for a period effective January 1, 1995, through December 31, 1995, or until the issuance of a new license for the project or other disposition under the FPA, whichever comes first. If issuance of a new license (or other disposition) does not take place on or before December 31, 1995, notice is hereby given that, pursuant to 18 CFR 16.18(c), an annual license under Section 15(a)(1) of the FPA is renewed automatically without further order or notice by the Commission, unless the Commission orders otherwise.

If the project is not subject to Section 15 of the FPA, notice is hereby given that Arizona Public Service Company is authorized to continue operation of the Irving and Childs Project No. 2069 until such time as the Commission acts on its application for subsequent license.

BILLING CODE 6717-01-M

[Project No. 2705-000]

City of Seattle, Notice of Authorization for Continued Project Operation

January 3, 1995.

On September 30, 1992, the City of Seattle, licensee for the Newhalem Creek Project No. 2705, filed an application for a new or subsequent license pursuant to the Federal Power Act (FPA) and the Commission's regulations thereunder. Project No. 2705

is located on Newhalem Creek in Whatcom County, Washington.

The license for Project No. 2705 was issued for a period ending December 31, 1994. Section 15(a)(1) of the FPA, 16 U.S.C. 808(a)(1), requires the Commission, at the expiration of a license term, to issue from year to year an annual license to the then licensee under the terms and conditions of the prior license until a new license is issued, or the project is otherwise disposed of as provided in Section 15 or any other applicable section of the FPA. If the project's prior license waived the applicability of Section 15 of the FPA, then, based on Section 9(b) of the Administrative Procedure Act, 5 U.S.C. 558(c), and as set forth at 18 CFR 16.21(a), if the licensee of such project has filed an application for a subsequent license, the licensee may continue to operate the project in accordance with the terms and conditions of the license after the minor or minor part license expires, until the Commission acts on its application. If the licensee of such a project has not filed an application for a subsequent license, then it may be required, pursuant to 18 CFR 16.21(b), to continue project operations until the Commission issues someone else a license for the project or otherwise orders disposition of the project.

If the project is subject to Section 15 of the FPA, notice is hereby given that an annual license for Project No. 2705 is issued to the City of Seattle for a period effective January 1, 1995, through December 31, 1995, or until the issuance of a new license for the project or other disposition under the FPA, whichever comes first. If issuance of a new license (or other disposition) does not take place on or before December 31, 1995, notice is hereby given that, pursuant to 18 CFR 16.18(c), an annual license under Section 15(a)(1) of the FPA is renewed automatically without further order or notice by the Commission, unless the Commission orders otherwise.

If the project is not subject to Section 15 of the FPA, notice is hereby given that the City of Seattle is authorized to continue operation of the Newhalem Creek Project No. 2705 until such time as the Commission acts on its application for subsequent license.
